Q. You have often written about the benefits of potassium, yet you advise against potassium supplements. Why? A. While there's no doubt that a diet rich in potassium provides cardiovascular benefits (notably for blood pressure control and stroke prevention), that may not be true of supplements—which can actually be dangerous for many people.

Put simply, then: cohesion is a formal feature of texts (it gives them their texture), while coherence is "in the eye of the beholder" - that is to say, it is the extent to which the reader (or listener) is able to infer the writer's (or speaker's) communicative intentions. Thus, cohesion is objectively verifiable, while coherence is more subjective.

Taking your examples first, I think the short answer is that: You could listen to the radio emphasizes that this is a suggestion or piece of advice, whereas You can listen to the radio emphasizes simply that this is an option that's available. You could listen to the radio contains more personal involvement and subjectivity; You can listen to the radio is more strictly factual and objective.
