Understanding River Blindness - BORGEM

The following conditions can impair vision or cause blindness in infants: infections, such as pinkeye, blocked tear ducts, cataracts, strabismus, or crossed eyes, amblyopia, or a lazy eye, ptosis, or a droopy eyelid, congenital glaucoma.

Blindness: Causes, Symptoms and Diagnosis - Healthline

In developed nations, the leading causes of blindness include ocular complications of diabetes, macular degeneration, glaucoma, and traumatic injuries. In third-world nations where 90% of the world's visually impaired population lives, the principal causes are infections, cataracts, glaucoma, injury,...

Blindness Symptoms, Treatment & Types - Health and Medical ...

Blindness is a severe vision impairment, not correctable by standard glasses, contact lenses, medicine, or surgery. It interferes with a person's ability to perform everyday activities. "Legal blindness" is defined as vision with best correction in the better eye worse than or equal to 20/200 or a visual field of less than 20 degrees in diameter.

Blindness and Vision Impairment | Gateway to Health ...

The disease killed an estimated 400,000 Europeans annually during the 19th century and one third of all the blindness of that time was caused by smallpox. 20 to 60% of all the people that were infected died and 80% of all the children with the infection also died.

Diseases and epidemics of the 19th century - Wikipedia

The term blindness can be defined across a wide spectrum. A person who is blind has severe visual impairment and may have difficulty performing ordinary tasks, regardless of the use of glasses and contact lenses. Blurred vision, blind spots, or tunnel vision could be some characteristics of vision

impairment.

Understanding Blindness - Featured | Global Oneness Project

Abstract. Two patients diagnosed as schizophrenic were partially blind, due to loss of the left eye sustained in a fight and iritis of the right eye respectively. Of all the patients who had a psychotic diagnosis, including schizophrenia, four were partially blind and one was totally blind on admission.

In 2012, the World Health Organization estimated that of the 285 million visually impaired people in the world, 39 million were officially blind. In the U.S., The National Federation for the Blind estimates that around 6.6 million Americans are currently living with a visual disability.

Understanding Blindness | Global Oneness Project

Black Swan has many themes outside of mental illness, but putting in the spotlight the problem of eating disorders in the dance world that still persists today was intentional, even if it was a very small part of the film. Eating disorders have been a serious problem through history and has come to a peak in the last few decades.
