

*Incommensurability And Commensuration The Common  
Denominator Ashgate New Critical Thinking*

**Incommensurability And Commensuration The Common**

The paper first discusses how the terms 'shared', 'social' and 'shared social' values have been used in the literature. It then establishes a theoretical framework that outlines five dimensions for distinguishing different interpretations of shared and social values: value type, provider, the process used to elicit values, the intention of value and the scale.
