1. Kuznets (1973) identified six characteristics defining modern economic growth. The other four were rapid population growth, structural transformation (primarily urbanisation and the shift from agriculture to manufacturing and then to services), changes in ideology (e.g. secularisation), the increased global reach of developed countries (part of what is now referred to as globalisation), and ...

Tönurist, Lead on Systems Thinking and Innovation Measurement at OPSI, OECD. It reflects the specific mission-oriented innovation session at the OPSI 2018 Conference 'Innovation in Government: Steps ...

### **Missions: 21st Century Drivers of Innovation ...**

Significance. Innovation is the activity of people and organizations to change themselves and the environment. It means breaking routines and dominant ways of thinking, introducing new things and behaviours, launching new standards.. Focused by a creative orientation, it arises from dissatisfaction with the current state of art, by leveraging technological and social new opportunities.
