I teach you the Java programming language in 30 minutes. Hi Derek, I really like the way you explain. I would like to know and learn the difference between Java 6 and Java 7 and also about new features of Java 8.

Java Programming - New Think Tank

Let's create and run some Runnable! With Java 8, instead of using anonymous classes, we can use lambda expressions. The syntax (params) -> statement is used to create an instance of Runnable by implementing its run method. This is possible only for interfaces that have only one abstract method, and such interfaces are called functional interfaces. ...
