Almost without exception, Americans believe that violent crime is increasing. In the short run, they are right: Violent crime did increase between 1985 and 1990. But what really worries most people is not the short-run trend but their sense that violent crime has been climbing steadily for a long time and that the future will only bring further increases.

the law of human progress agree completely with our previous conclusions about the laws of political economy. They also show that making land common property — by taxing its value — would give an enormous boost to civilization.

How Modern Civilization May Decline - Henry George

Why do nations fall? The greatest empires of the past, down to the last one, have each collapsed. Why? Is every civilization destined to decline and fall? Or is such a catastrophic disaster the effect of a specific cause?. Historians attribute the collapse of various civilizations to disease, demographics, political corruption, mass immigration, economic stagnation, climate change, inferior ...

The NBER does not define a recession in terms of two consecutive quarters of decline in real GDP. Rather, a recession is a significant decline in economic activity spread across the economy, lasting more than a few months, normally visible in real GDP, real income, employment, industrial production, and wholesale-retail sales.
